EDUCATION

Purdue University

Expected Graduation: May 2030

Bachelor of Science in Electrical Engineering

New England Institute of Technology

Sep 2025 – May 2026

Electronics, Robotics, and Drones Technology (Early College Program)

- Relevant Coursework: Electronic Circuit Construction, Intro to Robotic Control Systems, Calculus I

EXPERIENCE

Seasonal Campus Retail Associate

Jan 2026 – Feb 2026

Community College of Rhode Island (Barnes & Noble College)

Warwick, RI

- Operated POS system and handled cash/credit transactions
- Managed inventory, shelving, and store organization while maintaining efficient customer service during peak periods

LEADERSHIP & ACTIVITIES

Society of Women Engineers Representative

Sep 2026

Indiana State Museum

Indianapolis, IN

- Represented the Society of Women Engineers in Indianapolis at Tinkerfest 2026
- Facilitated hands-on engineering activities & demonstrations, helping design and construct freestanding towers to introduce basic concepts of structural stability

President

Oct 2024 – Feb 2026

Game Design Club (Cumberland High School)

Cumberland, RI

- Founded the school's first Game Design Club, developing weekly meetings, workshops, and projects
- Coordinated 40+ members in designing and presenting original games and prototypes

Crew Leader

Aug 2024

Chinese Christian Church of Rhode Island

- Served as a crew leader during a mission trip to Taiwan, organizing and leading Vacation Bible School activities for children
- Worked collaboratively with local churches to host bilingual-speaking (Mandarin Chinese & English) programs

PROJECTS

Medical Symptom Analyzer

Aug 2026 – Present

Purdue Engineering Projects in Community Service (EPICS) | Health Equity Research (HER)

- Developed an AI-assisted symptom checker web app with JavaScript that analyzes user-input symptoms and zip code to identify possible conditions, cross-reference local outbreak data, and flag urgency of care needed
- Worked w/ team of 10 to test AI prompt logic, ensuring accurate medical responses & integrating front-end with back-end API calls

Digital Alarm Clock

Feb 2026

- Assembled a functional digital alarm clock by soldering through-hole electronic components onto a printed circuit board according to circuit schematics
- Inspected solder joints to ensure reliable circuit functionality & resolved faulty connections

AWARDS

- 2026 Rhode Island Association of Chinese Americans Scholarship
- 2025 Society of Women Engineers Certificate of Achievement Award
- 2025 Rochester Institute of Technology Art and Design Award

SKILLS

Programming Languages: Python, JavaScript, HTML/CSS, C/C++

Tools: Git, Visual Studio Code, Microsoft Office, Multisim, AutoCAD
